ALTHOUGH playfully announcing she doesn't need him via chart-topping single *So What*, superstar singer **Pink** has revealed she never divorced husband **Carey Hart**.

The motocross champ will tag along on her Australian tour and host free, three-hour motocross stunt events in Sydney, Melbourne, Brisbane and Newcastle in conjunction with Pink's *Funhouse* shows, starting this month.

"We are definitely back together," Pink said. "We never really legally got divorced — paperwork for us is really annoying."

After separating in February last year, the split was the basis of the rockstar's angry current album but they are giving the union another go.

"This was one of the first steps," Hart said. "We had to come up with a way to be able to both go to work and both see each other."

"It's going to be a very exciting time for of us to both go to Australia and tour together for four months."
